Project Information

Project Name

Little League Field Lighting

Project Description

New Lighting for the Major League Field

Grant Amount Requested

\$100,000

Contribution to the Preservation of Nahant's Unique Character

Adding new lighting to our Major League Little League Field will help to expand the league by allowing more games and a chance to welcome more leagues to play. Nahant Little League has been around for almost 30 years and is an important part of the youth community in Town. The Little League typically plays games in May-June where it gets dark early. Nahant has not been able to host games later in the evening during this time due to the lighting system. Continuing the little league tradition and keeping the field updated will only help to continue the league.

Nahant has one of the premier Little League baseball fields in the area. It has been the iconic recreational facility of our community for many years. Continuing investment in this facility will enhance it's influence of Nahant's unique character and bring joy to many families for years to come.

Planning Context

Is **NOT** part of a Program Plan

Evaluation Criteria

This project will fund a new lighting system at the Nahant Little League Major League Field. The field has been without lighting for quite some time causing the field to be very underutilized. Replacing the lighting system could help to extend the league by having more games and allowing other leagues to use the field. Enhancing the field and increasing usage will generate revenue that could help offset costs of recreational leagues for Nahant residents.

Estimated Cost and Schedule

Attach cost estimates for construction projects and state how costs were derived.

Is your project expected to continue over more than one year?

No

Funding Information
