

Nahant Memorial Tree Program

In partnership with the Department of Public Works and Forestry Division, this commemorative program encourages the planting of trees in municipal land to honor a loved one or a notable event.

How to Participate

In return for your tax-deductible contribution for an ornamental or canopy tree, we will purchase, plant, stake, mulch, water, and maintain this new tree during its normal life; a replacement tree will be provided if lost within two years.

The cost of the tree will be dependent on the market price at the time of purchase.

Location & Species

Along with the Forestry Division and DPW, tree selections and planting locations are chosen based on species and appropriateness for placement. A list of tree species and locations are available. Planting occurs during the spring and fall.

Contact Information

Full Name:
