Warrant Article (Title and language.)

Prohibition of professional application of a certain class of rodenticides.

To see if the Town of Nahant will vote to prohibit the application of first- or second-generation anticoagulant rodenticides (SGARS) or future-generation anticoagulant rodenticides by professional pest control companies on all Nahant properties. These specific rodenticides cannot be purchased by the public but only by professional pest control companies. SGARS contain compounds that interfere with blood clotting and cause slow death lasting as long as several days from excessive bleeding and also remain in animal tissues for an extended period of time causing poisoning and inhumane suffering to target and non-target wildlife (owls, hawks, eagles) as well as pets and children.

We, the undersigned registered voters of Nahant, do hereby petition the Board of Selectmen pursuant to MGL Ch. 39, S. 10 to include the above Article in the Warrant of the next Annual Town Meeting
